GOOD LUCK GARDENS, PARADISE, PA.

## GOOD LUCK GARDENS PARADISE, PA.

....calliveria ( FOR HAPPY MIND AND HEALTHY BODY, CULTIVATE A GARDEN.

....The ancient proverb has it, "He who chops his own firewood, hath it warm him TWICE," and in equal measure, the man or woman who plants and tends a garden has DOUBLE joy from it—the joy of seeing things grow under a skillful hand; and the joy of the results in beauty

Once AGAIN, in this catalog, we offer the "foundation for happy gardens"—viz., seed-fertility which is so necessary to success with vegetables and flowers. This quality is not achieved by chance, but comes through endless watchfulness and thorough knowledge coupled with untiring patience and industry. We so value the name of the GOOD LUCK GARDENS that we would not knowingly put out a single seed which was below our standard of "big healthy and bountiful crops".

And as is usual with Good Luck Gardens Catalog, this year we introduce many novelties and unusual things. Our patrons have gardens which not only are admired but envied for their originality and "differentness". As always before, this current catalog is an interesting blend of the staple and the unusual.

May we call to your attention the following curious and valuable offerings?

DOUBLE GLEAM HYBRID NASTURTIUMS, sweet scented beauties, page 6.
GUINEA GOLD MARIGOLD, Double Carnation Flowered—Gold Medal Winner, page 7.
DOUBLE CALIFORNIA GIANT ASTERS, rivals to giant Chrysanthemums, page 15.
ORANGE FLARE COSMOS, gorgeous flowers 3 to 4 months after sowing, page 23.
FOUNTAIN PLANT, a curiosity for lawns or indoor planting, page 39.
SENSITIVE PLANT, living proof that plants feel; a real curiosity, page 40.
BABY BLUE MOON FLOWER, produces baby blue flowers by the hundreds, page 13.
SENSATIONAL BURBANK TOMATO, earliest tomato known to man, page 52.
LUCKY ALL PURPOSE BEET, richest, darkest red of any beet, page 56.
GOOD LUCK CORELESS CARROT, red-orange flesh of sweet, melting tenderness, page 62. page 62.
SNOW BALL TOMATO, ivory white skin, acid free paper white flesh, page 87.
GOLDEN CROSS BANTAM SWEET CORN, delicious ears of 10 to 14 rowed light

In looking through this catalog we hope you will live in anticipating many happy hours you will spend in your garden, seeding, tending, cultivating—also of the consummation when your labors are rewarded by hosts of beautiful flowers or useful vegetables. A garden is good to make and good for you—Good Luck Garden Seeds give you the utmost of garden satisfaction.

Gentleman: —The day after I planted the flower seeds in May the memorable 80 mile hurricane came this way. It did great damage, the seeds were blown every which way. Of course there was nothing to do but wait and see how and where they would come up. Even the metal labels were uprooted so when the plants were ready to be transplanted it was a good deal of guess work. With the result some of them were high where the low should have been and vica versa. The flowers were marvelous in size and color. Then came the four days in August of drenching rain and the garden was beaten flat. The following week they were more beautiful than ever. My garden covered 1-8 of an acre with bird bath in the center of colorful petunias, the bowl I painted sky blue. This was the first year I had planted your seeds I consider it was a Good Luck Garden after a disastrous bad luck start.

In Nature's Own Package Untouched by Human Hands

No. 2043, Pkt. 15c; oz. 50c; 1/4 lb. \$1.75; lb. \$5.00.

NOTE: When the skin of the Spagnetti Vegetable gives more than ordinnary resistance to pressure from the thumb nail you know it is ripe, regardless of color. Some of the vegetables are Golden Yellow. Some are Green and still others are Green and Yellow striped, depending on soil and cultivation. But the contents are always the same—always chock full of delicious Vegetable Spaghetti.

### WHITE WONDER CUCUMBER

Imagine, if you can, a pure white Cucumber-snowwhite in color from the time it begins to set. Fruits are uniform in shape and size (about 8 inches long). Begins to bear early and continues late. Pleasing flavor with flesh fine and crisp. Excellent sliced for salads or an ideal novelty mixed in a can with green pickles, exciting pleasing curiosity. Plant some and surprise your neigh-No. 2037, Pkt. 10c; oz. 20c; 1/4 lb. 50c; 1/2 lb. 85c.

(300 from one)

Think of raising nuts without a tree. These plants grow close to the surface and are very prolific. A plant often yields from 200 to 300 nuts. They have a thin shell, covering snow-white, delicious meat which has a sweet flavor very much resembling an almond. Children love them. They do well in every soil. Plant like potatoes and harvest the same time.

No. 2035. Pkt. 10c; lb. 40c.

### VICTORIA SPINACH

A healthful and delicious summer vegetable, often prescribed by doctors instead of medicine. We offer a grand

#### Luck Honey Good

The New Sensational Green Fleshed Melon

A South Sea Island Casaba crossed with a Colorado Honey Gem gives us this marvel melon. The fruits are large and nearly round, smooth of skin, light cream colored. The flesh is thick, light green, rich, spicy-sweet, and of distinctive flavor, unlike that of any other member of the melon family. Once eaten they become a habit. Honey Dews, if planted in the North, should be started in hotbeds to give them plenty of time to ripen. This succulent melon should be in every garden.

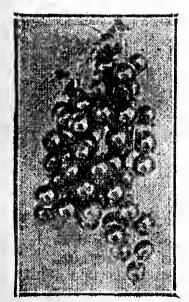

Good Luck Honey Dew. No. 2134, Pkt. 10c; oz. 20c.

GOOD LUCK HONEY BALL. A small edition of the Honey Dew. Really a cross between the above melon and Texas Cannon Ball. Perfectly round. Very sweet, yet retaining some of the spice of the Honey Dew. No. 2135, Pkt. 10c; oz. 20c; 1/4 lb. 50c.

## Garden HUCKLEBERR

From Seed to Berries Same Season

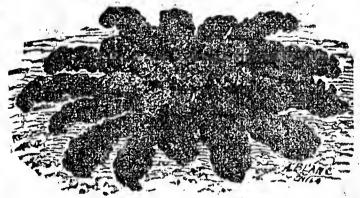

You will be more than pleased with this annual Wonder Berry. They are very prolific and will grow and thrive in any climate. Berries are large, about an inch in diameter, shining black in color. They should be fully ripe before using but will remain on the plant fully two months after they ripen. Unexcelled for pies or preserves. Cooked with apples or lemons they make fine, tasty jelly. Here is a garden surprise that

# New Asparagus SQUAS

### An Introduction of Exquisite Flavor and Tenderness

Does not grow on a vine but on a compact bush. 4 or 5 hills will keep a family supplied all summer with the best squash they ever tasted. The fruits can be used any size but to obtain the real delicate "asparagus-like" flavor they should be picked when about 4 to 6 inches long, quartered (without peeling) and served like asparagus. They are delicious, too, fried in butter, prepared like French fried potatoes or used as the common varieties. The fruits form rapidly, and if kept picked when small will keep your family supplied until fall with and if kept picked when small will keep your family supplied until fall with these dainty, tender squashes.
